

FLEXIBLE ORBITAL SANDER

FS 42070 E

TECHNICAL PARAMETERS

voltage	230 V 50/60 Hz
input	720 W
variable speed	2000 – 7600 min
grinding stroke	3.2 mm
dimensions of the plate	420 x 70 mm
min. convex radius	670 mm
min. concave radius	700 mm
class of protection	II
weight	3.1 Kg
dimensions of abrasive	420 x 70 mm, 14 openings, VELCRO
diameter of the suction nozzle	26 mm
certificate	CE

USAGE

The device is designed for sanding large convex and concave surfaces of the following materials: wood, epoxy, polyester and polyurethane coatings and mastics, plaster and plastic.

PACKAGING AND DELIVERY

Sander, operating instructions, 2 sheets of sandpaper, plastic case
